

WATER RESTRICTIONS

Due to low runoff and drought conditions, Grand Valley Irrigation has closed head-gates a bit. This causes our irrigation pond to fill at a slower rate. The more lawns that are watered at the same time will run the pond down too quickly causing the pumps to shut off. Each time this happens they need to be manually restarted and many times primed by a board volunteer.

In an effort to alleviate this problem and also to do our part in water conservation The Board of Directors has decided to maintain water restrictions for the subdivision. Please help by following the schedule below:

Water on TUESDAYS, THURSDAYS, SATURDAYS & 1st & 3rd Mondays

POWELL, ANDROMEDA, POLARIS, TAURUS

Water on WEDNESDAYS, FRIDAYS, SUNDAYS & 2nd & 4th Mondays

SAGITTARIUS, CAPRICORN, CORONA, LIBRA, SCORPIO

Please also try to vary watering times during the day so that not everyone is watering at the same time. We appreciate your cooperation in this matter. We will update owners as necessary, please look for postings at the park or on the board by the pond.

Sincerely,

The Monument Glen Filing III HOA

Board of Directors
